- High School, Blooming Buds Academy, Uttar Pradesh (2015 – 2017, 10CGPA)

HOBBIES

- JavaScript
- Reading
- Thinking

INTERNSHIPS and WORK EXPERIENCE

React Developer Intern (March 2022 – December 2022)

Coding Minutes Pvt. Ltd, Jalandhar Punjab

- Learned a lot about the fundamentals of React. Developed proficiency in creating and managing components, using props and state to pass data between components, and understanding the component lifecycle. Additionally, Gained experience with other modern front-end tools and frameworks like Redux, Webpack, and React Router.
- In the process, got to work together with other developers on the team, learned collaborative development practices like version control with Git and project management with tools like Jira.

Technical Content Writer (May 2022 – Present)

Scaler by Interviewbit, Bangalore, Karnataka

- As a technical content writer focused on JavaScript and React, I had the opportunity to expand my knowledge of these technologies. Researching and writing about these topics, made me gain a deeper understanding of their inner workings, as well as their applications and best practices.
- Writing technical content required me to develop effective communication skills. I learned to break down complex concepts into easy-to-understand language for readers who may not be familiar with the technology.

PROJECTS

Lets Universe (October 2022 – Present)

- A Universe of Possibilities
- My own initiative, with the aim of creating a better world. Today people are somewhere lost, this is a lifelong moving attempt to do something better in the world.
- Deployment : <https://letsuniverse.com/>

Lets Think (November 2022 – Present)

- The first idea and execution in the Lets Universe's Universe.
- A place to share thoughts, a fully functional full stack application, new users can be created who can post their thoughts, every user has its own personal profile page, users will see similar thoughts upon clicking on any thought. It's an active project and will keep getting better overtime.
- Deployment: <https://think.letsuniverse.com/>
